

## From the Pro

### Christmas Sale December 8<sup>th</sup>

Mark your calendar for Thursday December 8<sup>th</sup>, for the annual **Christmas Sale & Party** where the roulette wheel will make its annual appearance. After shopping, spin the roulette for possible additional discounts. Again this year, enjoy complimentary wine and cheese while you shop. Party time is from 5:30 p.m. - 8:30 p.m.

Remember when you buy at the Golf Shop this holiday season, complimentary gift wrapping is provided.

### Wish List – New for the Holiday Season

How many times during the holiday season does your spouse ask you for ideas for Christmas gifts? This year the Golf Shop is going to help with the problem of choosing the right gift that he or she will be proud of. All you have to do is to suggest to your spouse to come by the Golf Shop, look around, and then fill out a wish list. We will file each wish list, and then anytime a family member or friend comes to shop, they will have the advantage of knowing exactly what would make a perfect gift. To avoid duplicate gifts, we will update the list as items are purchased.

Remember all Gift Cards issued this year will expire December 31, 2011. And, the course, shop and grill closes at 3:00 pm Christmas Eve and all day Christmas Day.

## The Grill at WindStone

### Winter Hours in effect at *The Grill* for Food Service

Regretfully, once again this year we are implementing winter hours at The Grill. We continue to experience decreased volume with the short days and reduced golfing activity which makes it unprofitable to remain open continuously. We expect to resume normal hours around the middle of March. Beverage and snack service will be available daily. We do hope those who do use *The Grill* will continue to dine during these reduced hours which will allow us to keep our grill management staff in place.

### Fans

Many thanks to all our members who purchased advance guest fee certificates to help raise funds for the remaining fans. We are now planning and ordering all the necessary supplies to get the fans up promptly this spring. In addition to the fans we must obtain power sources and make strategic placement spotting choices to ensure good air flow.

*Merry Christmas  
Happy New Year*
